EXPERIENCE

Bausch Health, Bothell, WA   May 2021 – February 2022

Medical Device Assembler/Tester/Programmer

Based on the blueprint, documentation, and designs provided, I oversaw the assembling, testing, programming, and troubleshooting of the following technologies. Among the technologies on which I worked are:

- Assembled FLX Thermage Tips per requirement, blueprint, or design, ensuring the best product quality.
- Tested functionality of Ventx ultrasonic system Tips and handpieces, ensuring zero error.
- Programmed Ventx tower, Tips, and handpieces ensuring productions were on schedule.
- Inspected Vesor, powerX handpiece for defects per documents ensuring 100% compliance.
- Packaged and audited the products and reported daily produced quantities.
- Trained New employees on various production lines, ensuring that 100% of production lines were on schedule and compliant with the standards.
- Performed comprehensive medical device testing and reduced failure.
- Reviewed, inspected, and resolved electromechanical issues when needed.

Terra Staffing Group, Seattle, WA   October 2020–April 2021
 Temperature Screener
- Ensured each Employee received a positive experience and safety by Temperature screening.
- Asked common Coronavirus Screening Questions.
- Reported the daily Screening results.
- Facilitated the Safety Committee's monthly meetings and improved awareness.
- Escalated health issues to appropriate employees to ensure proper care is
  Provided.

Motorola Solutions, Addis Ababa, ETH   August 2014-September 2018
Assembler & Quality Assurance Supervisor
- Checked the revision status of process documents and blueprint to meet the standard.
- Complied and assembled according to the process document and instructions.
- Implemented 5s areas at set times, improved the work environment and minimized waste.
- Supervised the work of junior assemblers and advised better approaches.
- Maximized production quality by introducing final inspection audits.
- Maintained daily production logs and reported to the production manager on employee attendance, quality, and quantity of finished items.
